

ECUSOFTSERVICE TEAM

High Quality Solutions

Ecu Soft Service

ABOUT US

Ecu Soft Service – our project, improved and finalized version of the project ATP-Company. Over the four years of the company we were collected and systematized the main shortcomings and comments of our customers. To improve the quality of service, technical support and file service was created the project **EcuSoftService**.

✓ **Rapid response support**

The speed of response support is very important to our customers. Because basically there is no possibility to wait for the great amount of time. File service is available 24 hours a day. Time making solutions to 24 hours. To decrease time, we have added new automatic file processing algorithms and expanded staff.

ABOUT US

✓ Adding new solutions to new control units

Technical Support is constantly working to develop new solutions. Testing and adding to the program. The program adds only 100% working and tested on a real machine solutions. Those who wish to take part in testing, please write here support@ecusoftservice.com

✓ 100% working solutions

All decisions, that at the moment are presented in the program are 100% working guarantee. Our customers can participate in testing solutions. For questions about testing, please contact file support.

ABOUT US

✓ **All solutions tested on real cars**

All solutions are developed and tested on real cars. Each of which was in test operation. And only after a thorough check and confidence in the work of the decision, it was added to the program. We guarantee high quality of the proposed program-making.

✓ **Constant updating and supplementation solutions**

In order to improve software quality, we are constantly making additions and changes to their solutions. The world is not worth not suit. Constant expansion of the list of supported engine control units, expanding the range of solutions for ways to modernize

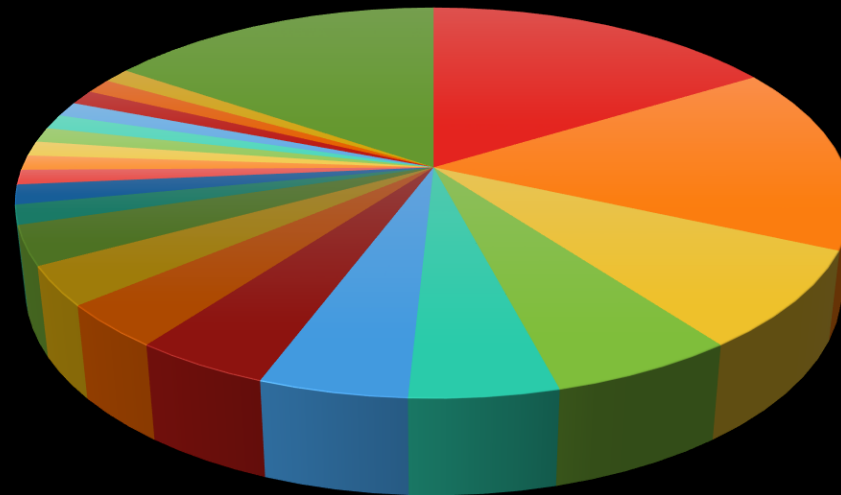

ABOUT US

✓ **More than 15 systems available to remove – DPF, EGR, CAT, IMMO, AdBlue ...**

The software supports more than 15 systems to disable. For each software ecu a set of functions is available for removal. On each system are accompanying comments that the user can perform necessary actions after remove.

GEOGRAPHY OF ESS SOFTWARE

User's Countries

- | | | | | | | | |
|---------|---------|----------|----------|---------|--------|-------------|-----------|
| Italy | Russia | Poland | Belarus | Spain | France | Netherlands | Turkey |
| Germany | Morocco | UK | Belgium | Ukraine | Serbia | Romania | Lithuania |
| Hungary | Austria | Thailand | Malaysia | Canada | Others | | |

ABBREVIATIONS

- ✓ **DPF** - diesel particulate filter
- ✓ **EGR** - exhaust gas recirculation system
- ✓ **TVA** - throttle flaps
- ✓ **VSA** - swirl flaps of collectors
- ✓ **MAF** - air flow meter
- ✓ **SCR** - AdBlue system
- ✓ **NOx** - the oxygen sensor
- ✓ **SPEED** - speed limiter
- ✓ **IMMO** - immobilizer
- ✓ **EVAP** - The ventilation system of the fuel tank
- ✓ **SAP** - second air
- ✓ **LSU** - lambda probe
- ✓ **DTC** - diagnostic trouble codes
- ✓ **IT SENSOR** - temperature sensor on the turbine

ESS0001 (FULL VERSION)

8,300 EURO

Full version of ESS Software. Includes:

- ✓ all the modules ESS0002-ESS0019
- ✓ all available functions
- ✓ license for first year
- ✓ files support for first year
- ✓ technical support for first year
- ✓ updates for first year
- ✓ license price for second and next year for ESS0001 (FULL VERSION) – 800 euro per year
- ✓ daily limit for this module – 20 files per day, if you have VAT number – 25 files

ESS0002(BMW, MINI)

700 EURO

ESS 0002 includes:

- ✓ all available functions for this module
- ✓ license for first year
- ✓ files support for first year
- ✓ technical support for first year
- ✓ updates for first year
- ✓ license price for second and next year for ESS0002(BMW) – 300 euro per year
- ✓ daily limit for this module – 15 files per day
